ABOUT US

SOBRE NOSOTROS

“LA HISTORIA DE GARCÍA REQUEJO ES UN RELATO FAMILIAR TEJIDO CON PASIÓN, COMPROMISO Y LA BÚSQUEDA CONSTANTE DE UNA CALIDAD QUE TRASCIENDE EL TIEMPO.”

The story of García Requejo is a family tale woven with passion, commitment, and the constant pursuit of timeless quality.

Desde 1962, creando mobiliario e iluminación de diseño para proyectos contract.

Con más de 60 años de trayectoria, la historia de García Requejo comenzó cuando su fundador, José Ramón García Requejo, descubrió en un anticuario una rueda con más de tres siglos de historia. A pesar de su juventud, José Ramón vio en aquella pieza una inspiración única: la transformó en lámpara, dando vida a un diseño que con el tiempo se convertiría en un ícono, con miles de réplicas vendidas.

Since 1962, creating designer furniture and lighting for contract projects. With more than 60 years of experience, the history of García Requejo began when its founder, José Ramón García Requejo, discovered a spinning wheel over three centuries old in an antique shop. Despite his youth, José Ramón saw in that piece a unique inspiration: he transformed it into a lamp, giving life to a design that over time would become an icon, with thousands of replicas sold.

Este primer éxito impulsó a García Requejo a crear sus primeras colecciones de lámparas y mobiliario. Pocos años después, la empresa fundada por José Ramón se consolidó como una de las marcas más reconocidas de mobiliario clásico en España. Tanto fue así, que en 1969 fue seleccionada para representar al país en la feria internacional de Frankfurt.

This first success encouraged García Requejo to create his first collections of lamps and furniture. A few years later, the company founded by José Ramón became established as one of the most renowned classic furniture brands in Spain. So much so that, in 1969, it was selected to represent the country at the international fair in Frankfurt.

A lo largo de los años setenta, García Requejo revolucionó las ferias de decoración en España, al convertirse en la primera empresa en diseñar habitaciones completas dentro de sus propios stands. Durante la década de los ochenta, consolidó su posición en el mercado del mobiliario contract y la iluminación a medida, sector en el que sigue siendo un referente hasta la actualidad.

Desde 1981, las colecciones de García Requejo han estado presentes en las ferias más prestigiosas del sector, como Maison&Objet (París), HostelCuba, la Feria Internacional del Mueble (Valencia), Hostelco (Barcelona), Intergift (Madrid), I Saloni Worldwide (Moscú) y Batimatec (Argelia).

Su participación constante en estos eventos la ha convertido en un punto de referencia para comercios de prestigio, arquitectos y decoradores, así como para hoteles y cadenas de restauración que, a lo largo de los años, han confiado en la originalidad y calidad de sus productos.

Throughout the 1970s, García Requejo revolutionized decoration fairs in Spain, becoming the first company to design complete rooms within its own stands. During the 1980s, it consolidated its position in the contract furniture and bespoke lighting market, a sector in which it remains a benchmark to this day.

Since 1981, García Requejo's collections have been showcased at the most prestigious international fairs, such as Maison&Objet (Paris), HostelCuba, the International Furniture Fair (Valencia), Hostelco (Barcelona), Intergift (Madrid), I Saloni Worldwide (Moscow), and Batimatec (Algeria).

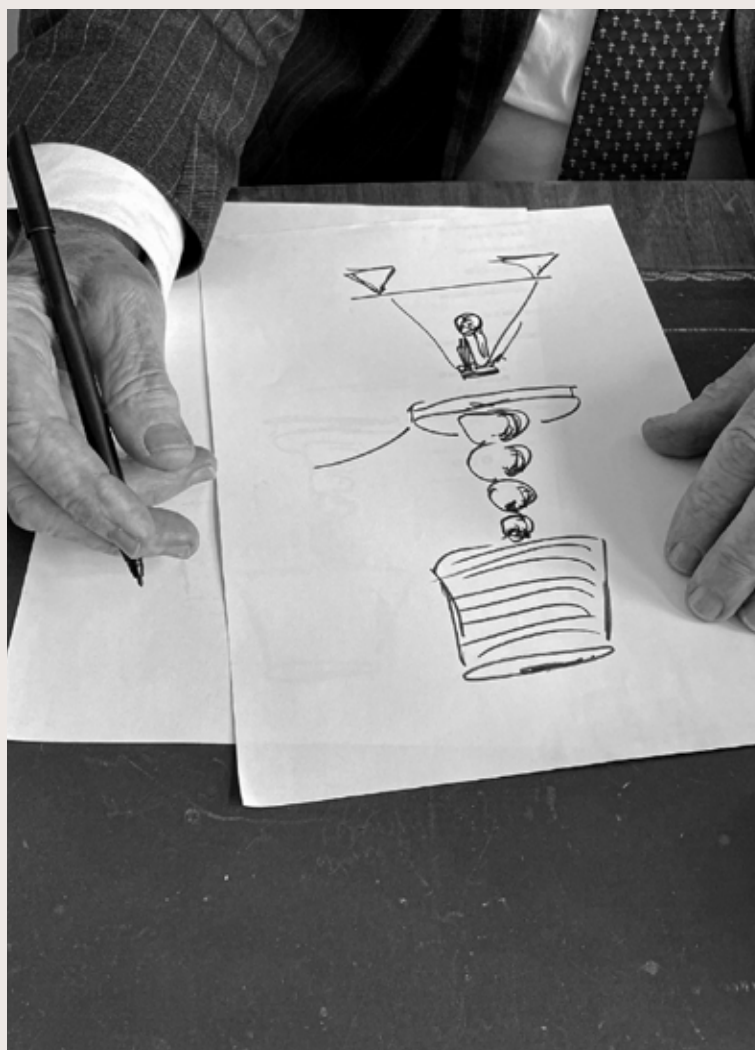

Its continuous presence at these events has established the company as a point of reference for prestigious retailers, architects, and interior designers, as well as for hotels and restaurant chains that, over the years, have trusted in the originality and quality of García Requejo's products.

La experiencia de García Requejo ha sido clave para el éxito durante todos estos años. Tras toda una vida dedicada al sector, ha resultado indispensable apostar por la innovación y mantenerse a la vanguardia del diseño. Sin renunciar a la oferta clásica y de calidad de la que nace nuestra identidad, García Requejo dispone de un amplio catálogo de iluminación decorativa y técnica lista para poner al servicio de cada proyecto.

En la actualidad, la empresa es dirigida por la arquitecta de interiores Rebeca García Sánchez, hija del fundador, José Ramón García Requejo.

García Requejo's experience has been key to its success throughout the years. After a lifetime dedicated to the industry, the company has made innovation and staying at the forefront of design indispensable pillars of its identity. Without abandoning the classic, high-quality offering from which its essence was born, García Requejo now presents an extensive catalog of decorative and technical lighting, ready to be tailored to the needs of each project.

Today, the company is led by interior architect Rebeca García Sánchez, daughter of founder José Ramón García Requejo.
